Single Printer Driver with Multiple Print Jobs Processing

10% discount for Printer Driver*
Coupon code: **gEMArt6**
Valid through January 31th 2019

Download the Printer Driver Now!

Black Ice Software has released the ability to print to a Single Printer with Multiple Parallel Ports as well as added support for Windows Server 2019 in version 15.41 of the Printer Drivers.

This new technology significantly improves printing speeds and is only available in Black Ice Software's Printer Drivers.
There are no other virtual printer drivers on the market that offer this advanced technology, exploiting the advancements in computing power.

The Single Printer Parallel Port configuration offers similar performance in document conversion as the Parallel Multi-printers, although it only has one Printer.

This printer configuration is ideal for a Print Server environment, where lots of users are printing at the same time, such as for faxing or archiving.

This new printing technology does have a few limitations. This configuration does not allow parallel printing to the printer driver by an automated printing process such as with Document Converter Servers, since there is only one printer. This solution also has higher system requirements and CPU usage than the typical multi-threaded printer driver.

Available for the **TIFF/Monochrome, PDF, ColorPlus Licensed Printer Drivers only**.

The complete list of improvements in the latest Printer Driver includes the following:

- Supporting Windows Server 2019
- Added the Multi-port feature to Licensed printer driver installers (#10287)
- Stability improvement for the "Send printed document in email" feature, Outlook window appearing behind the printing application (#10331)
- Stability improvement for printing documents containing very large number of images in parallel to PDF format (#10320)
- Updated PDF Dlls to version 2.9.9.701
- Updated Manuals

Free Upgrades and Priority Support

Do not forget to subscribe to future releases by purchasing maintenance. With an active maintenance subscription, you will receive all new releases for free! Priority email technical support is also included in your subscription. For more information, call us at **+1 (561)-757-4107 Extension 3**, or sales@blackice.com.

As a special offer, if your maintenance subscription has expired or you did not include the maintenance subscription in your original purchase, simply refer to this newsletter to renew or add maintenance retroactively!

For license information, please visit our Customer License Management Portal.

*Only valid for new purchases, no upgrades or add-ons. This offer cannot be combined with any other discounts.
